

St. Thomas More Catholic School

Triennial assessment results 2025/26

Meet our team

- Gary Davis, Principle
- Steve Faulkner, P.E. Teacher
- Jane Annin, Lunch Program Director
- Students, Parents & Community Friends

Policy compliance results

We participated in the School Lunch Program, The Local Farm to School using local farmers here in Nebraska in the 2025 school year, and added more fresh fruits & vegetables to our school menu. Our Outdoor learning garden was used daily, the students love it!

There are also many athletic activities such as family dances, basketball & volleyball teams, our K.O.C. have an annual free throw contest. Our P.E. classes meet one or 2 times per week, depending on grade.

Wellness policy goals

1. Start a Lunch Salad bar for our students
2. Expand use of Outdoor Learning Center
3. Bring in new members to our Wellness Community

We are still working on funding for our Salad Bar, hopefully by the start of the 26/27 school year we will have more information. Our Outdoor Learning Center is doing well and having some renovations during the summer. Students enjoy reading, doing nature walks and finding bugs out there! We have recruited new members for our Wellness Team and hope to add more.

Key achievements

- More fresh fruits & vegetables served to our students
- More activities outside in our Learning Center and on school grounds
- We added a couple new members to our Wellness Team
